- No. 1: The Applicant represents all parties in interests and shall furnish material, do all work, pay all costs, and shall in a reasonable length of time restore the damaged portions of the highway to a condition similar or equal to that existing before the commencement of the described work, including any seeding or sodding necessary.
- No. 2: The proposed work shall be located and constructed to the satisfaction of the County Engineer or his duly authorized representative. No revisions or additions shall be made to the proposed work on the right-of-way without the written permission of the County Engineer.
- No. 3: The Applicant shall at all times conduct the work in such a manner as to minimize hazards to vehicular and pedestrian traffic. In performing this work, the Applicant shall provide a traffic control plan acceptable to the County Engineer. All signs, barricades, flagmen, etc. required for traffic control, shall be furnished by the Applicant. The work may be done on any day except Sunday, New Yearøs Day, Memorial Day, July 4, Labor Day, VeteransøDay, Thanksgiving Day, and Christmas Day. Work shall be done only during daylight hours.
- No. 4: The work performed by the Applicant is for the bonified purpose expressed and not for the purpose of or result in parking or servicing vehicles on the highway right-of-way. Signs that overhang the right-of-way shall be prohibited.
- No. 5: The Applicant, his successors or assignees, agree to hold harmless Bureau County and its duly appointed agents and employees against any action for personal injury or property damage sustained by reason of the exercise of this permit. Said Applicant, his successors, grantees and assignees shall assume all risks and liabilities for all accidents and damages that may occur to persons or property on account of the work done here under.
- No. 6: The County reserves the right to make such changes, additions, repairs, and relocations within its statutory limits to the facilities constructed under this permit or their appurtenances on the right-of-way as may at any time be considered necessary to permit the relocation, reconstruction, widening, or maintaining of the highway and/or to provide proper protection to life and property on or adjacent to the County right-of-way. However, in the event this permit is granted to construct, locate, operate and maintain utility facilities on the County right-of-way, the Applicant, upon written request by the County Engineer shall perform such alterations or changes of location of the facilities, without expense to the County, and should the Applicant fail to make satisfactory arrangements to comply with this request within a reasonable time, the County reserves the right to make such alterations or changes of location or remove the work, and that Applicant agrees to pay for the cost incurred.
- No. 7: This permit is effective only insofar as the County has jurisdiction and does not presume to release the Applicant from compliance with the provisions of any existing statutes or local regulations relating to the construction of such work.
- No. 8: The Applicant (s) affirms that the property lines shown on the attached sheet are true and correct, and binds and obligates himself to perform the operation(s) in accordance with the description and attached sketch and to abide by the policy regulations.
- No. 9: The Applicant shall auger or bore all crossings of existing Bituminous and Concrete Roadways.
- No. 10: The Applicant shall backfill all excavations across gravel roadways in six (6) inch compacted lifts and the top twelve (12) inches shall be granular material or total granular compacted in six (6) inch lifts at the option of the Applicant.
- No. 11: The Applicant shall comply with the policy on the Accommodation of Utility on Rights-Of-Way of the Illinois Highway System.
- No. 12: The Applicant shall notify Bureau County in writing or contact the County Engineer by telephone at least forty-eight (48) hours in advance of starting work covered by this permit.
- No. 13: It is understood that this permit is issued insofar as Bureau County has jurisdiction and does not presume to release the Applicant from fulfilling any existing statutes relating to the construction and operation of said facility.
- No. 14: No work shall proceed on the Right of Way unless a copy of the valid construction permit is on the job site and an indemnifying bond in the amount of \$20,000.00 filed with the County Clerk by the Applicant to cover permits on an annual basis.
- No. 15: In the event that damage should occur to any portion of the roadway as a result of construction or otherwise, the Applicant shall make repairs so that the road will be passable pending permanent repairs if said damage occurs from work performed by the applicant or caused by its facilities. If said damage is not repaired within seven (7) days as per state specifications, the County Engineer, may, with the approval of Bureau County, repair said damage at the expense of said Applicant and in the event that said payment is not made as required, Bureau County may collect said payment from the indemnifying bond. No further permits will be issued to the permittee until payment is made.

STATE OF ILLINOIS BUREAU COUNTY TRANSPORTATION DEPARTMENT 595 Elm Place Princeton, IL 61356 Phone No. (815)-875-4477

SPECIAL PROVISIONS FOR CONSTRUCTION OF WATERLINES WITHIN THE HIGHWAY RIGHT-OF-WAYS ON COUNTY MAINTAINED ROADWAYS

APPLICANT_____ PERMIT NO. _____

GENERAL

Waterlines generally are those pipelines carrying potable water and permit applications for such lines shall indicate that all reuirements of the Illinois Environmental Protection Agency, Division of Public Water Supplies, have been satisfied. Waterlines shall be installed to meet or exceed the recommendations of the current õStandard Specifications for Water and Sewer Main Construction in Illinois.ö

PARALLEL WATER MAINS

Parallel water mains may be permitted on the rights of way of county highways under the following conditions:

- 1. The installation shall be located as near as practicable to the right of way line and not more than 8 feet (2.4m) from and parallel to the right of way line.
- 2. The materials, construction methods and other requirements conform to the provisions of the applicable sections of the õStandard Specifications for Road and Bridge Constructionö and the õStandard Specifications for Water and Sewer Main Construction in Illinois.ö
- 3. Water main cover shall be sufficient to provide freeze protection and preferable should be a minimum of 4 feet 6 inches (1.4m).

WATER MAIN AND SERVICE CROSSINGS

Water main and service crossings of conventional County highways may be permitted under the following conditions:

- 1. Installation shall cross at or as near as near as practicable to a 90 degree angle with the centerline of the highway.
- 2. The materials, construction methods and other elements shall conform to the applicable sections of the õStandard Specification for Road and Bridge Constructionö and the õStandard Specifications for Water and Sewer Main Construction in Illinois.ö
- 3. The crossings shall be installed by jacking or boring under completed highway projects.
- 4. Encasements shall be furnished between bore pits unless continuous pipe or Department approved jointed pipe is used under the roadway structure.

- 5. Casing may be omitted if pipe is installed prior to highway construction and carrier pipe is continuous or mechanical joints are of a type approved by the Department. Bell and spigot type pipe shall be encased regardless of installation method.
- 6. Crossings shall have sufficient cover for freeze protection [preferably a minimum of 4 feet 6 inches (1.4m)].
