

ARTICLE IV

Parking, Loading, Traffic, Access

4.1 PURPOSE

To provide off-street parking and loading recommendations suitable to the type of activity and to relieve traffic congestion on the public way.

4.2 PARKING AND LOADING

The off-street parking and loading provisions of this Ordinance shall apply as follows:

4.21 Increase in Intensity of Use

When the intensity of use of any building, structure, or premises shall be increased through additional dwelling units, gross floor area, seating capacity, or other units of measurement specified herein for required parking or loading facilities, parking and loading facilities as required herein shall be provided for such increase in intensity of use.

4.22 Change of Use in Existing Building or Structure

Whenever the use of an existing building or structure shall hereafter be changed to a new use, parking or loading facilities shall be provided as required for such new use. However, if the said building or structure was erected prior to the effective date of this Ordinance, additional parking or loading facilities are mandatory only in the amount which the requirements for the new use would exceed those for the existing use if the latter were subject to the parking and loading provisions of this Ordinance.

4.23 Existing Parking and Loading Facilities

Accessory off-street parking or loading facilities which were in existence on the effective date, shall not hereafter be reduced below, or if already less than, shall not further be reduced below the requirements of this Ordinance for a similar new building or use.

4.24 Control of Off-Site Parking Facilities

Where required parking facilities are provided on land other than the zoning lot on which the building or use served by such facilities is located, they

shall be, and shall remain in the same possession or ownership as the zoning lot occupied by the building or use to which the parking facilities are accessory. No such off-site parking facilities shall be authorized where the plans call for parking facilities other than on the same zoning lot, until and unless the Bureau County Planning Commission has reviewed the plans and heard the applicant and made findings that the common ownership or possession of the zoning lot and the site of the parking facilities are reasonably certain to continue and that the off-site parking facilities will be maintained at all times during the life of the proposed use of building, and that such separate zoning lot is zoned to permit the principal use or uses for which the off-street parking was established.

4.3 ADDITIONAL REGULATIONS, PARKING

4.31 Application - Types of Parking

Except as otherwise indicated, required accessory off-street parking facilities provided for uses listed hereinafter shall be solely for the parking of passenger automobiles of patrons, occupants (or their guests), or employees of such uses.

4.32 Collective Parking

Off-street parking facilities for separate uses may be provided collectively if the total number of spaces so provided collectively is not less than the sum of the separate requirements for each such use and provided that all regulations governing location of accessory parking spaces in relation to the use served are adhered to. Further, no parking space or portion thereof shall serve as a required space for more than one (1) use unless otherwise authorized by the Bureau County Planning Commission.

4.33 Location

No parking stall or driveway, except in residential districts, shall be closer than five (5) feet to a Residential lot line or a street line opposite a Residential district. See also Section 4.24.

4.34 Size

Size of each parking space shall not be less than one hundred and eighty (180) square feet (10 x 18 feet) exclusive of the space required for ingress and egress.

4.35 Access

Each required off-street parking space shall open directly upon an aisle or driveway of such width and design as to provide safe and efficient means of vehicular access to such parking space. All off-street parking facilities shall be designed with appropriate means of vehicular access to a street or alley in a manner which will least interfere with traffic movements. Subject to approval by the County Highway Engineer.

4.36 Design and Maintenance

4.36-1 Surfacing and Bumper Guards

All open off-street parking areas except parking spaces accessory to a single-family dwelling, shall be improved with a compacted macadam base with surface treatment (sealcoat), an asphaltic concrete surface, concrete, or some comparable all-weather dustless material, and shall have appropriate bumper guards where needed.

4.36-2 Lighting

Any lighting shall be directed away from residential properties in such a way as not to create a nuisance and shall not be of such a light intensity to create a nuisance to neighboring areas. Lighting shall be directed downward.

4.36-3 Drainage

Except as otherwise permitted by the appropriate county body, the drainage of paved surfaces on private properties shall be provided for on the site. Subject to approval of the County Highway Engineer.

4.36-4 Screening

Screening of off-street parking facilities shall be required on all interior side yards and rear yards adjoining a Residential or Agricultural district and may consist of solid fencing, or dense hedge or shrub to a minimum of six (6) feet in height.

4.37 Mixed Uses

When two (2) or more permitted uses are located on the same zoning lot or within the same building, parking spaces equal in number to the sum of the separate requirements for each such use shall be provided. No parking space or portion thereof shall serve as a required space for more than one (1) use unless otherwise authorized by the Bureau County Planning Commission.

4.38 Other Uses

For uses not listed in the following schedule of parking requirements, parking spaces shall be provided on the same basis as required for the most similar listed use, as required by this Ordinance or as varied due to unique circumstances by the Bureau County Planning Commission.

4.4 ADDITIONAL REGULATIONS, OFF-STREET LOADING

4.41 Location

All required loading berths shall be located on the same zoning lot as the use served. No loading berth for vehicles over two (2) tons capacity shall be closer than fifty (50) feet to any property in a Residence district unless completely enclosed by a building wall, or uniformly painted solid fence or wall, or any combination thereof, not less than six (6) feet in height.

4.42 Size

Size of each parking space shall not be less than five hundred (500) square feet exclusive of the space required for ingress and egress.

4.43 Access

Each required off-street loading berth shall be designed with appropriate means of vehicular access to a street or alley in a manner which will least interfere with traffic movements and subject to approval of the Bureau County Planning Commission and the County Highway Engineer.

4.44 Surfacing

All open off-street loading berths shall be improved with a compacted macadam base, not less than eight (8) inches thick, surfaced with not less than two (2) inches of asphaltic concrete or some comparable all-weather, dustless material.

4.45 Drainage

Except as otherwise permitted by the appropriate County body, the drainage of paved surfaces on private properties shall be provided for on the site, subject to approval of the County Highway Engineer.

4.46 Space Allocation

Space allocated to any off-street loading berth shall not, while so allocated, be used to satisfy the space requirements for any off-street parking facilities or portions thereof.

4.47 Uses Not Classified

For uses other than prescribed for hereinafter, loading berths adequate in number and size to serve such use - as determined by the Zoning Board of Appeals - shall be provided.
